The ASA is expanding its database of sociologists who are subject matter experts. This database serves as an easily accessible resource that ASA Public Affairs and Public Information (PA/PI) staff consult when journalists request interviews with experts for their stories. In addition, PA/PI staff peruse the database before proactively offering names of experts on particularly timely topics to reporters. For example, after Osama bin Laden was killed, PA/PI staff developed a list of sociologists who could discuss the significance of bin Laden's death from a variety of sociological perspectives, and made it available to reporters. For more information, please click here<<http://bit.ly/GBpbS4>>. To join the ASA Experts Database immediately, please click here<<http://bit.ly/HGfxi8>>. If you decide to join, you will be asked to provide details including your ASA Member ID, email address(es), phone number(s), area(s) of expertise, biographic information, and recent publications.
