PROGRAM

Eightieth Annual Meeting

Washington Convention Center

Aug. 26 — 30, 1985

Working and Not Working

The conditions under which people are likely to be working in the last decade and a half of the 20th century have been profoundly changed by new developments in the work place and by new expectations in the culture generally. At the same time, large numbers of people may live through the closing years of the century not working at all, and the consequences of that outcome for the individuals concerned could be serious indeed. The wording of the theme, then, is meant to draw attention to both halves of that larger whole—what work means to those who are a part of the labor force, and what it means to those who are not.

*Kai Erikson, President

ASA Executive Office—Convention Center, Room 8

The Headquarters Office will be staffed from Monday through Friday by Executive Office personnel. The demands on staff time and equipment are limited to official ASA functions; secretarial services are not available. Individuals or groups requiring office equipment must arrange for the rental of this equipment directly with suppliers.

ASA Information Desk—Convention Center, Center Lobby

The Information Desk is staffed with ASA Executive Office personnel who will be able to provide information on membership, subscriptions, and publications. Copies of the 1985 *Guide to Graduate Departments*, the 1984 *Directory of Members* and the 1984 *Directory of Departments of Sociology* are available for purchase, as are other ASA publications. Sample copies of ASA journals are also available for inspection. In addition, Teaching Resources Center materials are on display, free copies of catalogues are available, and new TRC materials are for sale.

Child Care—Convention Center, Rooms 6 and 7

Child care is being provided by personnel from The Children's Center, Inc. of Washington, DC. Care will be available during daytime program sessions (8:00 a.m. to 6:30 p.m.) for infants and older children. Evening care can be arranged on an individual basis; check with child care personnel or the Executive Office for details.

Lunch and snacks will be provided; however, parents may arrange to take their children out for lunch or bring a special bag lunch with them in the morning if they prefer.

Charges for those who did not pre-register their children for the Child Care Service will be \$7.50 per child for a half-day (8:00 a.m.—1:30 p.m.) and \$15 per child for the entire day. [For children using the Child Care Service for shorter periods, the half-day fee will apply in order to encourage more stable use, discourage frequent dropping in and out, and simplify payment.] Children who have not been pre-registered with the Service will be accepted on a space-available, first-come first-served, basis only.

NOTE: All parents using this service must also be paid registrants for the Annual Meeting.

Employment Service—Convention Center, Exhibit Hall D

The ASA Employment Service will again this year be under the very capable direction of Mr. and Mrs. Bill Clement and will be open Monday through Thursday, 9:00 a.m.-5:00 p.m.

Facilities will be available for reviewing employment listings, exchanging messages, and interviewing. If you have pre-registered for the Employment Service, report to the Exhibit Hall as soon as possible to activate your file. If you have not registered, you should do so as early as possible.

All persons using the Service must register for the Annual Meeting as well as for the use of the Employment Service. Once registered, you will be issued a pass permitting your entrance to the Service any time it is open. No one will be admitted without a pass. Fees for the use of the Employment Service are: ASA member applicants—\$5; non-ASA member applicants—\$25; Employers—\$30.

Exhibits—Convention Center, Exhibit Hall D

All Annual Meeting attendees are encouraged to browse through the Exhibits located in the Exhibit Hall. Exhibits open on Monday, August 26 and will close on Thursday, August 29. Exhibit hours are: 9:00 a.m. until 5:00 p.m., Monday through Wednesday; 9:00 a.m. to 1:00 p.m., Thursday. See the "Directory of Exhibitors" listed elsewhere in this Program for names and booth numbers for all exhibitors.

Paper Sales—Convention Center, Exhibit Hall D

Papers will go on sale at 9:00 p.m. on Monday at the price of \$1.25 each. All session papers which

were submitted to the Executive Office for duplication and/or distribution at the Annual Meeting appear on the list of "Available Papers" (free copies available in the Paper Sales Room). Papers may be purchased as long as supplies last; orders for future delivery cannot be accepted. Requests for papers which have sold out or were not supplied must be sent directly to the author(s) and, in order to facilitate this procedure, a "Roster of Authors" which includes names and addresses of authors may be purchased for \$1.50. The Executive Office is not able to return unsold copies of papers to individual authors after the Annual Meeting. However, authors may pick up remaining copies of *their own* papers (including those that the ASA duplicated) on Friday after 1:00 p.m.

NOTE: Persons wishing access to the Paper Sales Room must also be paid registrants for the Annual Meeting; badges will be required for entrance into this area.

Press—Convention Center, Room 9

Media representatives are invited to stop by for press registration packets.

Roster of Pre-registrants—Convention Center, Center Lobby

A roster containing the convention addresses of pre-registrants is posted on a bulletin board in the Registration Area. A Locator File will be maintained at the ASA Information Desk as the meeting progresses.

Site Visits—Convention Center, Center Lobby

Those already enrolled for site visits should have received their tickets with their meeting packets. Please check at the Seminars Desk in the ASA Registration Area for any cancellations or changes in site schedules. All tours will depart from the 9th Street entrance of the Washington Convention Center. Present tickets to the site visit escorts when boarding buses.

Some tickets may still be available for tours; check at the Seminars Desk. Cancellations will not be accepted; you may, however, sell your ticket to someone else if you are unable to attend.

Washington Support Group

Through the good offices of Matilda and Jack Riley, Co-Presidents of the District of Columbia Sociological Society, a large but informal "committee" of Washington-based sociologists headed by David Goslin and Otto Larsen and staffed by Carla Howery and Janet Astner, helped greatly in furthering our effort to take advantage of the fact that these meetings are being held in Washington, DC where many sociologists are importantly "at work." They have arranged site visits and made other contributions to the program. We extend our thanks to them all.—*Kai Erikson, 1985 Program Chair*

Persons who have confirmed reservations should have received their tickets along with their name badges. If, however, your check and reservation request were received in the Executive Office too late for processing, a refund will be made at a later date. Please check at the Luncheons/Seminars Desk. Ticket sales will be closed 30 minutes before luncheons begin each day.

Cancellations will not be accepted later than 48 hours prior to the scheduled luncheon. You may, however, sell your ticket to someone else if you are unable to attend.

These roundtable discussions are particularly valuable for those who are developing a set of new ideas and would like to have these explored further by colleagues with similar interests. They also offer an opportunity for those with similar scholarly, instructional, or policy concerns to gather and initiate and expand networks.

ASA Section Activities

Section activities, frequently innovative and ranging in format from formal paper presentations to topical seminars to mini-conferences, are interspersed throughout the five-day schedule of the Annual Meeting and are open to all meeting attendees. As determined by the ASA Council, the number of sessions allocated to each Section is based on the size of the section. For the 23 active sections, there are a total of 101 separate program activities scheduled. Site Visits

Part of the "Washington flavor" of the 1985 ASA Annual Meeting are site visits to places where sociologists work in various capacities. At each site, several sociologists and other professional staff will meet with the tour group to describe the type of work that goes on at the site, demonstrate or summarize some recent projects and give a tour of the physical plant. Time will also be available for questions and individual consultations.

The schedule of site visits is provided below. Reservations are mandatory; please check at the Seminars Desk in the ASA Registration Area for availability and any late cancellations. All site visits will depart from the 9th Street entrance of the Washington Convention Center.

ASA Business Meeting and Awards Ceremony

The annual Business Meeting of the Association is scheduled for Thursday, August 29, at 8:00 p.m. All members of the ASA are encouraged to attend to hear Association officers present their reports to the membership, see ASA Awards presented, and consider resolutions from ASA members offered for discussion and action.

Resolutions for the Business Meeting must be delivered to the ASA Headquarters Office in the Convention Center, Room 8, before 5:30 p.m. on Wednesday, August 28. Each resolution must indicate the name and affiliation of the submitter and identify the person who will actually present the resolution at the Business Meeting. Those received before the deadline will be posted in the ASA Registration Area so that members may become familiar with upcoming business. Resolutions submitted to the Executive Office by the Wednesday deadline will be given preference on the Business Meeting agenda; unposted resolutions will be permitted, up to the limit of time available before the 10:00 p.m. adjournment.

Reminder... Only current voting members of the ASA may submit, present, discuss or vote on Business Meeting resolutions.

DAN!

The Thirteenth Annual Departmental Alumni Night (DAN) Party will be held on Monday evening at 10:00 p.m. (*Convention Center, Room 38-39*). Just find the banner from the institution you attended, served, are serving, or hope to serve. A special table for international guests and another for sociologists in business and industry will provide additional "home bases". Centrally located cash bars will be set up to aid in the fun.

Student Reception

On Monday, August 27, from 6:00-7:30 p.m. (*Convention Center, Room 32*), ASA will sponsor a Student Reception to provide opportunities for students to acquaint themselves with sociologists of diverse sociological specialties and backgrounds. Members of several ASA Committees and Sections and Honors Program participants will be present to encourage and facilitate the informal exchange which makes this event so distinctive. All students and practicing sociologists are cordially invited to attend this open reception.

Welcome and Orientation Party

The Committee on Membership welcomes new members and first-time convention attendees, and all other members interested in finding ways to greater involvement in the Association, to an Orientation Party on the first night of the Annual Meeting. ASA officers and representatives from Committee and Sections will be present to provide information about Association activities and answer questions on an informal basis. Free beer and soft drinks will be provided to meeting registrants. Refer to the announcement in your registration packet for details on the Orientation Party on Monday, 6:30-8:00 p.m. in the Convention Center, Room 33.

Presidential Reception

All convention attendees are cordially invited to the Presidential Reception on Tuesday, 6:00 p.m. in the Convention Center, Hall A, following the Presidential Address (Session 91) by *Kai Erikson* (Yale University). The ad hoc irregular jazz group will again provide music to set the mood for this special event!

Student Hospitality Room

A section of the Convention Center Lobby will be set aside from 8:00 a.m. to 6:00 p.m., Monday through Friday to provide a place for students to meet, caucus, make dinner arrangements, etc. All students registered for the Annual Meeting are welcome to make use of this hospitality area.

Other Groups Displays

Several organizations will have membership information and publications on display in the Table Space Area (Convention Center, Lobby Corridor).

Activities of Other Groups

Meetings, times and locations of activities of various groups meeting in conjunction with the ASA are listed elsewhere in this Program. Except for a few cases, these meetings are open to the membership. All groups are encouraged to have announcements available in the ASA Registration Area and Other Groups Displays Area for members' information.

Included are insightful chapters on the dynamics of social change, the development and stratification of society, and the role of violence in society (including revolutions, civil wars, and international wars). An instructional package is available that includes an instructor's manual and test bank and a student study guide. ISBN 0-8304-1112-7, just published

It is comprehensive in its coverage of the full range of topics in marriage and the family, and deals insightfully with many contemporary issues including the dual-career family, married and unmarried sexual relations, the birth experience, life transitions, marital violence, child abuse, child custody, aging, death and bereavement. CULT CONTROVERSIES

The Societal Response to the New Religious Movements

James A. Beckford

The controversies surrounding "cults" have become more heated and complex since the 1960's. Drawing on the author's interviews with ex-members and their relatives, this book offers a comprehensive interpretation of the controversies surrounding these new religious movements or "cults" in terms of a sociological theory about their place in supposedly secular societies.

CONDUCT UNBECOMING

The Social Construction of Police Deviance and Control

Maurice Punch

Conduct Unbecoming focuses on the internal and external reactions to the exposure of deviance in three police forces—New York, London, and Amsterdam. Using data gathered from documents and from the author's own observations and interviews, the book illustrates how deviance is socially constructed by key actors, through social processes, and in specific situations, emphasizing that corruption scandals do not just happen, they have to be made.

is pleased to announce publication of

Ronald M. Pavalko's SOCIAL PROBLEMS

This new text, to be published in November, is intended as a comprehensive text for the social problems course.

Material is presented with an emphasis on how specific problems have developed and been defined over time. There is a strong historical dimension to the presentation.

There is an *explicit* emphasis on how *public policy* has attempted to deal with social problems.

SOCIOLOGY AND EVERYDAY LIFE By David Karp and William Yoels

The focus of this new book is on the application of sociological principles, concepts, and ideas to the everyday, lived worlds of people. The text is meant to be used in introductory courses or perhaps in social psychology.

A key assumption underlying this book is that the value and vitality of sociology is in large measure dependent on its ability to provide fresh insight into events and situations we might ordinarily take for granted.

MATHEMATICAL AND STATISTICAL PROGRAMMING PACKAGE FOR YOUR IBM PC
FAST • EASY TO USE • POWERFUL

GAUSS™

YOU'VE NEVER SEEN ANYTHING LIKE IT!

GAUSS is a sophisticated mathematical and statistical programming package for the IBM PC and compatibles. It combines speed, power, and ease of use in one amazing program.

GAUSS allows you to do essentially anything you can do with a mainframe statistical package — and a lot more.

Personal computers are friendly, convenient, and inexpensive. So is GAUSS. GAUSS is not just a stripped-down mainframe program. GAUSS has been designed from the ground up to take advantage of all of the conveniences of a personal computer. After trying GAUSS, you may never use a mainframe again.

GAUSS comes with programs written in its matrix programming language that allow you to do most econometric procedures, including OLS, 2SLS, 3SLS, PROBIT, LOGIT, MAXIMUM LIKELIHOOD, and NON-LINEAR LEAST SQUARES.

In the current version, GAUSS will accept up to 90 variables in a regression. There is no limit on the number of observations.

GAUSS will do a regression with 10 independent variables and 800 observations in under 4 seconds — and with 50 variables and 10,000 observations in under 18 minutes. It will compute the maximum likelihood estimates of a binary logit model, with 10 variables and 1,000 observations, in 1-2 minutes, depending upon the number of iterations required.

GAUSS allows you to do complicated statistical procedures that you would never imagine trying on a mainframe. It is easy to program almost any routine, and GAUSS is so fast that it can do almost any job. But the nicest thing of all is that the cost of time on your personal computer is essentially zero!

GAUSS is an excellent teaching tool. It makes programming easy and allows students to focus on concepts and techniques.

If you can write it mathematically, you can write it in GAUSS. Furthermore, you can write it in GAUSS almost exactly the way you would write it mathematically.

GAUSS is 10-15 times faster than other programs that use the 8087, and 15-100 times faster than other programs that do not use the 8087.

As in APL, single statements in GAUSS can accomplish what might take dozens of lines in another language. However, GAUSS provides you with additional powerful numerical operators and functions — especially for statistics and the solution of linear equations — that are not found in APL. And, of course, the syntax in GAUSS is much more natural (for most of us) than that in APL.

GAUSS has state-of-the-art numerical routines and random number generators.

GAUSS is extremely accurate. It allows you to do an entire regression in 19 digit accuracy. It will compute the Longley benchmark coefficients in 5 hundredths of a second with an average of 11 correct digits! (Try that on a mainframe!)

GAUSS, with its built-in random number generators and powerful functions and operators, is an excellent tool for doing simulations.

GAUSS and the 8087 NUMERIC DATA PROCESSOR GIVE YOU MINICOMPUTER PERFORMANCE ON YOUR DESKTOP.

Growing Up Poor

Terry M. Williams and William Kornblum, The Graduate School and University Center at CUNY

This book examines teenagers trapped in poverty and the reasons some succeed in the struggle to get out and others finally give up trying. Based on the teenagers' own accounts, it describes their experiences with working and seeking work, achievements in school and athletics, family life, and the positive influences of their peers and adult mentors. It also details the negative choices that tend to make poverty a life sentence: prostitution and street hustles, pregnancy and early parenthood, gang membership and criminal outlets, drugs and withdrawal into despair.

Still Struggling A Portrait of Low-Income Women in the 1980s

Barbara Ann Stolz

This thought-provoking book looks at women without glamorous careers — how they live, obstacles to success, and strategies for advancement. According to Dr. Stolz, the primary obstacle to women's advancement is a set of beliefs she calls the "captive mentality" that is reinforced by cultural, familial, and educational influences. She proposes strategies for the workplace and for society at large to help these women develop the "master mentality" instead.

By the Few for the Few The Reagan Welfare Legacy

Tom Joe and Cheryl Rogers, Center for the Study of Social Policy

Joe and Rogers analyze the true state of AFDC families affected by the 1981 social-spending cuts. They explore who the working AFDC families removed from the welfare rolls were, how their lives were affected by the cuts, and how they fared one to two years later. The authors illuminate the human dimension of the technical and abstract government policies by bridging the gap between public policy and the real world.

Taking Care of Business

The Economics of Crime by Heroin Abusers

Bruce D. Johnson, Paul J. Goldstein, Edward Preble, James Schmeidler, Douglas S. Lipton, Barry Spunt, and Thomas Miller, New York State Division of Substance Abuse Services and Narcotic and Drug Research, Inc.

This book is the most detailed investigation ever undertaken of the criminal behavior, drug abuse, and economic activities of street heroin abusers. The authors pioneered the use of systematic interviewing in a neighborhood storefront to collect both qualitative and quantitative data about all aspects of the addicts' lives, including the type, number, and dollar returns from crime; the use, purchase, and sale of drugs; income from all sources; and expenditures for all purposes.

ISBN 0-669-09535-4 1985 304 pages \$29.00

Life With Heroin Voices from the Inner City

Bill Hanson, George Beschner; James M. Walters and Elliott Bovelle

This fascinating account of the social world of Black male, regular heroin users from four different American cities is written from the perspective of the users themselves. The authors call for a more humanistic understanding of the social worlds of heroin users by focusing on the users' perspectives and lifestyles rather than on their drug use. They explore the implications of the findings for the prevention and treatment of heroin use and for future research.

Richard T. Schaefer

1986, 656 pages (tent.), (0-07-055070-0)

In its extremely popular first edition, this text was acclaimed for its clear presentation of sociological theories and concepts through the use of contemporary examples. *Sociology, 2/e* retains the strengths that have made it such a successful textbook. In addition, it features new and expanded coverage of: • health care • leisure • women's issues • computers and social change • cross-cultural issues. The supplement package has been enhanced for this edition, and once again includes the invaluable *Sociology Update*.

PAPERS OF THE LEAGUE OF WOMEN VOTERS, 1918-1974

Advisory Editor: Dr. Susan Ware

Scholars concerned with the history of women in twentieth-century America should rejoice at the availability of the Papers of the League of Women Voters.

—Dr. Pat King, Director, The Schlesinger Library, Radcliffe College

The League of Women Voters has been one of the most significant vehicles for women's political activism since the passage of the Nineteenth Amendment. At the same time, the League has sought to strengthen the entire fabric of democracy in the United States by educating all voters, regardless of sex, for an active part in government.

UPA's new research collection, *Papers of the League of Women Voters*, provides a detailed picture of the evolution of America's foremost women's organization. The first parts of this collection include the central organizational records of the League from its inception in 1920 through 1974: the Minutes of the Board of Directors and Executive Committees, and the Records of Annual and Biennial LWV Conventions and General Councils. (Papers of pre-League organizations are included for 1918-1920.) Later additions to the collection will draw on the League's organization files, subject files, central administration files, personal correspondence files, and others.

Presenting a unique research opportunity, these documents cover virtually every aspect of American political history from 1920 through 1974 and will be a treasured source for scholars of women's studies, social welfare history, political science, international affairs, American history, sociology, and biography.

Susan Ware is author of *Beyond Suffrage: Women and the New Deal* and *Holding Their Own: American Women in the 1930s*.

PATHS TO PARADISE: ON THE LIBERATION FROM WORK

Andre Gorz

Gorz, an iconoclastic Marxist, challenges the progressives to look for new ways of understanding work, leisure and the role of the worker in society; to look into the relations between waged work and free time if movements for social change are to say anything to a generation whose identity is shaped more in consumption than in work. \$8.00

POLITICS OF HUMAN SERVICES

PROPHETS OF ORDER: THE RISE OF THE NEW CLASS, TECHNOCRACY AND SOCIALISM IN AMERICA

Donald Stabile

TIME WITHOUT WORK: PEOPLE WHO ARE NOT WORKING TELL THEIR STORIES. HOW THEY FEEL. WHAT THEY DO. HOW THEY SURVIVE.

Walli Leff & Marilyn Haft

Seventy-three men and women describe how they feel about not working, what kinds of work they perform "outside" the regular economy. The authors analyze the nature of work—past and future. \$9.00
